

Stora-R-A-50-DSC-500-OS

Round surface-mounted luminaire made of extruded aluminum profile with 50mm profile height and compact wall or ceiling-mounted housing for a slight shadow gap and a slight indirect component.

All operating devices and terminals are integrated in the housing and ensure efficient utilization of the mid-power LEDs. The light deflection takes place via an opal PMMA disk. Driver DALI dimmable. Dimensions: D500 / H50mm plus body
LED luminous flux: 2.500lm at 20W
